RESEARCH AND PUBLICATION

Fang, K. J., **Archie, B.**, Anderies, A., & Chowanda, A. (2025). "Client-Based Learning and Zero-Knowledge Proof Implementation in Social Media Recommendation Systems." In Proceedings of the 2025 International Seminar on Application for Technology of Information and Communication (iSemantic), IEEE. ieeexplore.ieee.org/document/11291883 → Lead author. Drove the full writing of the paper end to end and contributed to the Random Forest + ZKP Streamlit implementation, a recommender that runs ML inference on device and uses zero-knowledge proofs to keep user data off the server while preserving recommendation quality. Presented at IEEE iSemantic 2025

SELECTED PROJECT

itinerary.id - Travel Itinerary Planner

Full-stack web product for Indonesian travelers

itinerary.id

2025

- Built and shipped a live travel planning product for Indonesian travelers with recommendations; led design and frontend, help with backend and deployment end to end.
